And Water Your Stock at

the Same Time. I AM AGENT FOR THE LATEST

Iron Turbine Wind Mill Pump.

A tank of water right at your dwelling or barn is often the best insurance one can have; and water for stock is as essen tial as food. You will not have to ask that darkey, "Did you water those mules"? and on Sunday all you have to do is to open the stable door and the wind does the rest. The "Red Jacket" Pump

can be primed without removing the whole affair, and any 15-year-old boy can manage it without help. Will be glad to make estimates for those who wish to buy.
